TREO. P. HAUGHEY, Pres't. H. LATHAM, Cash. CONDITION OF THE MARKETS

A Fair Degree of Activity in the Chicago Pits, the Tendency Being Downward.

Wheat Opens Quiet and Lower, but Closes Fairly Steady-Corn Practically Unchanged -Provisions Active but Weaker.

MONEY, BONDS AND STOCKS.

A Weak and Feverish Opening, Followed by Decided Activity and Strength. NEW YORK, Aug. 8.-Money on call was sasy at 101 per cent.

Prime mercantile paper, 41 261 per cent. Sterling exchange was dull but steady and

anchanged. The total sales of stocks to-day were 237,418

shares, including the following: Canada Southern, 4,172; Delaware, Lackawanna & Western, 9,760; Erie, 10,528; Lake Shore, 12,178; Michigan Central, 4,010; Missouri Pacific, 9,400; Northwestern, 3,525; New Jersey Central, 12,970; Northern Pacific, preferred, 7,908; Reading, 34,700; Richmond and West Point, 3,100; St. Paul, 17,633; St. Paul & Omaha, 3,285; Texas Pacific, 14,200; Union Pacific, 14,945; Western Union, 19,487; Wheeling & Lake Erie, preferred,

The stock market to-day was quiet and somewhat feverish and weak in the forenoon, but became active and decidedly strong later in the day, when all the early losses were regained, with fractions in addition. The bullish feeling on the street was undiminished this morning, and liberal buying orders from the other side stimulated the hopeful sentiment. The traders and sold-out "bulls" were again working for a reaction, and the market was hammered during the greater portion of the day, the result being that up to 12 o'clock the majority of the list was fractionally lower, while the efforts of the opposition forces in the market kept the dealings unsettled and feverish. During the early portion of the afternoon, however, there was an influx of purchasing orders and the operators for a decline retired, beaten, and began to buy. This made an active and at times buoyant market, and the improvement in quotations was checked only with the close of business. In the forenoon the Vanderbilt stocks were specially prominent, but became very strong in the face of the weakness displayed by the remainder of the list, and C., C. C. & I. scored an extreme gain of 3 per cent., a portion of which, however, was lost later in the day. The other Vanderbilts were comparatively quiet, but all displayed a strong front. In the afternoon the advance was begun by the Gould stocks, Missouri Pacific being specially strong, while Western Union led in the trans-Goold stocks were also all active and prominent in the advance, and Texas Pa cific notably so, the story being that the Boston pool which has lately been successful in lifting New England, was bulling the stock. The grangers were comparatively quiet, pending the new complications with the State authorities of Iowa and Nebraska. Among the specialties Pullman was again remarkable for the advance made. The opening was active and about steady, though the tone of the dealings soon became weak, and prices shaded off with the coal stocks in the lead. Spells of duliness marked the trading, and the market became quite feverish, but the Vanderbilts were exceptions to the rule, being decidedly strong, and before noon C., C., C. & L had gained 3 per cent. There was less animation after 12 e'clock for some time, but the market showed more strength in the rest of the list and everything moved up on increased business. The advance con inued without interruption until the close of business, and Union Pacific and Reading became more prominent in the last hour, and Jersey Central also developed great strength, and recovered all of the early moraing loss. The close was active and strong at about the best prices of the day. Outside of Pullman, which gained 13 per cent., all the important advances were in the Vanderbilts and

the gains in the remainder being for fractional Railroad bonds were once more active to-day, the total sales of all issues reaching \$2.000,000; while a number of issues were prominent in the trading, Atlantic & Pacific incomes contributed \$403.000; Texas Pacific firsts \$270,000; Texas Pacific seconds \$128,000, and Erie seconds \$167,-000 to the full amount. The market did not wait for the share list, but was strong throughout the day, and material advances were made in many of the leading issues traded in. The Atlantic & Pacific incomes were the special features, however, and they sold up to 244 and closed at 244 from 221 last evening, a net gain of 2 per cent. Other important advances comprise International seconds, 34, to 70; Lake Shore first coupons, 3, to 128; Wabash second certificities, 2, to

Gould stocks, and C., C., C. & L. rose 12. Mis-

souri Pacific 13, and Western Union 1 per cent.

86, and Great Western certificates, 2, to 86. Government bonds were steady and dull. State bonds were entirely neglected. Closing

CHICAGO, Aug. 8 .- The action of the markets this morning was more wild than for many days. At times there was fair activity in all the pits and on the Exchange floor, but that was confined to the rallies or upturns in prices. The general tendency was downward. Wheat was quiet and \$\frac{1}{2}\vartheta \text{lower during the forencon. At 12:30 it touched 82\vartheta \text{c.} a decline of 1c from the close on Tuesday. The price was above 83c again in an instant, for while the tendency of prices for the session was downward, there was stubborn fighting all the way down. Wheat closed fairly steady about to under last night. In corn the range was on to narrow and closing prices were very nearly the same as on Tuesday. Oats were quite firm, and, independent of the earlier markets, for other grains prices show a small improvement. Provisions were active but weak and lower. Short ribs showed the greatest decline, and the price for Septem-ber dropped from 8.40c to 8.15c, and closing sales were at 8.17 c, a net loss of .27 c from Tuesday. Lard closed .10c lower. Pork was offered more freely than buyers were disposed to take it, and September broke from \$14.30 to \$14.05, but closed at \$14.15. The leading futures ranged as

#### INDIANAPOLIS MARKETS.

A Good Trade in Progress with the More Comfortable Weather.

INDIANAPOLIS, Aug. 8. In all departments to-day there was a brisk trade in progress. Buyers were in, in goodly numbers, and purchased freely, and the trade of the present month promises to be very satisfactory. In prices there were but few changes. Sugars bave taken on a steadier tone and the distribution continues large. Coffees rule steady for the time being, but the future of the market seems somewhat uncertain. The New York Bulletin says: "There does not appear to be many new suggestions to make on the general market for Brazil. A line of inquiry and tentative bidding from a very desirable portion of interior custom continues in satisfactory form and affords strong encouragement to the belief that it will be followed in due time by a respectable and stimulating volume of actual orders, represersing good solid consumption. There

is also evidence that the barricade widely diverging differences opinion between jobbers and importers is in course of demolition, and that opportunity for more liberal handling of goods will be presented. In the matter of price it will probably require some little time to bring about an adjustment. but present indications seem to show that the speculative element is pretty well tired out and not inclined to create much, if any, disturbance, so that by fair concessions on the part of both buyers and sellers dealing in actual goods, there is a reasonable basis to hope for a healthier legitimate business." Dry goods men had a good trade. The large stocks and the varied character are attracting a good deal of attention. It is said that Indianapolis dry goods houses have never before opened for the fall trade so large and complete stocks. The produce mar-kets are active. Both apples and peaches are firmer in tone, but no higher in price quotably. Hens and chickens firm and in good demand. The same is true of choice butter. Eggs are hardly as firm as last week, but quotably un-
